FEATURED VIDEO: SOSA Technical Standard key contributors team to demonstrate a platform to demo alignment and goals

Video

<https://youtu.be/pqjo0DcmwHs>

Involved were Pentek, Elma Electronic (for backplane and system management components), Interface Concept (for backplane switch modules), Concurrent Technologies (for single-board computer modules), and Crossfield Technology for IPMI and chassis management support, all specifically designed to be in alignment with the SOSA Technical Standard.
